Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: Faculty of Natural Sciences	
Code: 1d-fil-014	**Course name:** Analytical writing and reading

Type, extent and method of instruction:
Form of instruction: Lecture
Course type: B (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses)
Recommended number of periods: 26
Method of study: combined

Number of credits: 3

Recommended semester/trimester: 2., 4.

Level: I.

Prerequisites:

Course completion conditions:
The maximum number of points covering continual and final assessment is 100. Credits are assigned to students who acquire a minimum of 65 points out of a possible 100.
a) continuous assessment:
continuous specialized tasks (0 - 40 points)
b) final assessment:
final assessment:
writing a final academic essay (0 - 60 points)

Learning objectives:
Students will be able:
1. To understand the specifics of an academic text with emphasis on the critical and analytical aspects.
2. To use basic strategies and techniques of critical reading and writing.
3. Knowledge of preparing, planning and writing academic texts.
4. To fulfil academic homework connected to academic reading and writing.

Brief outline of the course:
1. Author and reader – the teacher as reader, the student as author.
2. Logic and argumentation in writing and reading – consistency, contradiction, contrary and contradictory statements, the expressive strength of propositions.
3. Essay structure – basic features of structure.
4. Writing – how to select an essay topic, techniques for composing, outlining, succesive elaboration, conceptual note taking, research and composing, polishing the text.
5. Tactics for analytic writing and reading – definitions, distinctions, analysis, dilemmas, counterexamples, Reductio ad Absurdum.
6. Some constraints on content – the pursuit of truth, the use of authority, the burden of proof.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: Faculty of Natural Sciences	
Code: 1d-uSDP	**Course name:** Brief History of Law

Type, extent and method of instruction:
Form of instruction: Lecture
Course type: C (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses)
Recommended number of periods: 26
Method of study: combined

Number of credits: 3

Recommended semester/trimester: 2., 4., 6.

Level: I.

Prerequisites:

Course completion conditions:
The prerequisite for passing the course is attendance at a minimum of 90% of the teaching and active participation of students in class. The evaluation is in accordance with the classification scale according to the Study Regulations of Matej Bel University.
a) continuous assessment:
Continuous evaluation is not performed.
b) final assessment:
The basis for the award of the final grade is the demonstration of mastery of the knowledge of the lecture material, which is demonstrated in an active dialogue with the teacher in the teaching of the subject.

Learning objectives:
The aim of the subject is to present the basic features of the development of the state and law from ancient times to the 20th century. It is intended to clarify to the student how law was born, what stages of development it went through in terms of form and content, with an emphasis on the development of public and private law (basically) in the countries of Europe and the USA. After completing the subject, the student should be able to understand the historical context, understand the authentic meaning and content of contemporary terms, clarify the meaning and content of legal institutes, critically evaluate historical legal institutes, the philosophical and value roots of law, and on their basis should be able to create his own opinion on current law and legal systems (not only) in the European area.

Brief outline of the course:
Basic characteristics of the state establishment in the Greek poleis. Greek ancient law. Ancient Rome – constitutional development in individual periods. Brief basics of Roman law - selected institutes. Medieval state and law; feudalism and the feudal system. Sources of medieval law in Europe. Reception of Roman law. Medieval public and private law. Specifics of the Anglo-Saxon legal system. Modern age - anti-feudal revolutions, constitutionalism, modern law codifications. The origin and development of the United States of America. US law. The French Revolution, the codification of law during the reign of Napoleon, the influence on the development of modern law.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: Faculty of Natural Sciences	
Code: D_1_KvOF_cuvp	**Course name:** Cryptocurrencies in Personal Finances
Type, extent and method of instruction: **Form of instruction:** Seminar **Course type:** C (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) **Recommended number of periods:** 26 **Method of study:** combined	
Number of credits: 3	
Recommended semester/trimester: 1., 3., 5.	
Level: I.	
Prerequisites:	
Course completion conditions: a) continuous assessment – active participation 50 points; b) final assessment – presentation of current topics 50 points.	
Learning objectives: The student will: 1. be able to describe what cryptocurrencies and blockchain technology are, i.e. cryptographic functions (hash), the process of mining and issuing new currency, various consensus mechanisms including Proof-of-Work and Proof-of Stake used in the Bitcoin and Ethereum blockchains. 2. understand how cryptocurrencies work, distinguish the basic characteristics and key metrics of Bitcoin and altcoins such as Ethereum, Tether, XRP, BNB Cardano, Dogecoin, etc. 3. identifiy the advantages of cryptocurrencies, distinguishes between different types and features of centralized, decentralized and hybrid blockchains and appropriately assesses which one is suitable for which purposes. 4. evaluate how cryptocurrencies can be stored, searched and analyzed for real transactions in open blockchain networks. 5. examine how cryptocurrencies can be secured, identifies selected risks, including legal, regulatory and tax aspects 6. identify selected uses of cryptocurrencies in personal finances, such as means of payment, trading, investing or hedging. 7. understand more advanced uses of blockchain, such as smart contracts, digital assets, tokenization, CBDC, DeFi and others.	
Brief outline of the course: The course provides an introductory understanding of cryptocurrencies such as bitcoin or ethereum and blockchain technology in the context of personal finance. The course will: - examine the theory and principles of functioning of digital currencies; - provide practical examples of basic transactions and operations of blockchain or distributed ledger-based systems; - examine the current and future interaction of digital currencies with banking, financial, legal and regulatory systems;	

- will help students understand the disruptive potential of blockchain and how this ecosystem can be seen as an innovation;
- discuss the latest developments (such as tokenization, DeFi and CBDC).

The course will consist of the following topics:

1. Theoretical introduction to cryptocurrencies and their history. Decentralized consensus proof-of-work and proof-of-stake, cryptocurrency overview.
2. A practical introduction to cryptocurrencies. Hands-on exercises in using and creating transactions with digital currencies. Working with a digital wallet, crypto exchanges, crypto ATMs.
3. Examples of the use of cryptocurrencies. Domestic and foreign payments. Trading and investing. Hedging and prediction markets. Tokenization. DeFi. CBDC.
4. Taxes, regulations and risks of cryptocurrencies.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: Faculty of Natural Sciences	
Code: 1d-ajc-300	**Course name:** Global skills
Type, extent and method of instruction: **Form of instruction:** Seminar **Course type:** C (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) **Recommended number of periods:** 26 **Method of study:** combined	
Number of credits: 3	
Recommended semester/trimester: 1., 3., 5.	
Level: I.	
Prerequisites:	
Course completion conditions: Active participation in seminars, self-study of recommended materials provided by instructor. **b) final assessment:** Active participation in seminars, studying relevant sources recommended by the teacher.	
Learning objectives: At the end of the Global Skills course, students will be able to: - explain the importance of global skills in different domains of our wellbeing (intelellectual, emotional, occupational, social, etc.), - analyse different sources aligned with different aspects of global skills, - use critical thinking and creativity when working on individual and group assignments, - give constructive feedback to their peers, - reflect on their peers´ opinions and self-reflect their own learning, - develop their autonomy in learning, - incorporate global skills activities in their future jobs.	
Brief outline of the course: Selected global skills: 1. Communication and collaboration – the ability to use verbal and non-verbal forms of communication and to work effectively with others in order to achieve shared goals; 2. Creativity and critical thinking – generating new ideas and solutions and analysing information to form a balanced judgement; 3. Intercultural competence and citizenship – the social and interpersonal skills necessary for managing cross-cultural encounters in an appropriate way, with respect and openness to others; 4. Emotional self-regulation and wellbeing – the ability to recognize and understand one´s emotions and the awareness of positive physical and mental health practices; 5. Digital literacies – individual technological skills necessary for working with digital communication channels.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: Faculty of Natural Sciences	
Code: 1d-uPPvK	**Course name:** Labour Law in a nutshell

Type, extent and method of instruction:
Form of instruction: Lecture
Course type: C (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses)
Recommended number of periods: 26
Method of study: combined

Number of credits: 3

Recommended semester/trimester: 1., 3., 5.

Level: I.

Prerequisites:

Course completion conditions:
The prerequisite for passing the course is attendance at a minimum of 90% of the teaching and active participation of students in class. The evaluation is in accordance with the classification scale according to the Study Regulations of Matej Bel University.
a) continuous assessment:
Continuous evaluation is not performed.
b) final assessment:
The basis for the award of the final grade is the demonstration of mastery of the knowledge of the lecture material, which is demonstrated in an active dialogue with the teacher in the teaching of the subject.

Learning objectives:
The graduate will have knowledge of the basic principles and functions of labor law, will be oriented in the basic provisions of the Labor Code, should be able to apply them to individual and collective labor relations in practical life.

Brief outline of the course:
1. Concept and subject of labour law. Basic principles of labour law.
2. Subjects of labour law, labour law subjectivity. Pre-contractual relations.
3. Employment contract (essential elements, other arrangements). Probationary period.
4. Types of employment relationship. Fixed-term employment. Methods of termination of employment.
5. Agreement on termination of employment (subjects, form, reasons). Termination of employment (subjects, form, reasons).
6. Immediate termination of employment (subjects, form, reasons). Severance pay, severance pay. Prohibition of competing activities during and after termination of employment.
7. Working time (scheduling, length). Rest periods.
8. Overtime work, on-call time. Types of leave (brief characteristics).
9. Wages (brief characteristics). Maternity leave, parental leave.
10. Obstacles to work on the part of the employee. Obstacles to work on the employer's side.
11. Assumptions of liability for damages. Employee's liability for damages.
12. Employer's liability for damages. Agreements for work performed outside the employment relationship (brief characteristics).

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: Faculty of Natural Sciences	
Code: 1d-his-901	**Course name:** Latinčina v akademickom prostredí
Type, extent and method of instruction: **Form of instruction:** Lecture **Course type:** C (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) **Recommended number of periods:** 26 **Method of study:** combined	
Number of credits: 3	
Recommended semester/trimester: 1., 3., 5.	
Level: I.	
Prerequisites:	
Course completion conditions: Attending of contact lessons and completion of partial tasks as assigned. **a) continuous assessment:** Active participation and presentation of assigned tasks (searching for terms and phrases in Latin dictionaries and collections of Latin expressions, identifying Latin expressions in texts, adapting and applying assigned expressions in text or speech). **b) final assessment:** Only according to the continuous assessment	
Learning objectives: Students of the course will: 1. Use grammatical handbooks and dictionaries to verify the spelling and pronunciation of Latin expressions. 2. Be able correctly to pronounce (to read) Latin expressions. 3. Have knowledge of the historical context of Latin usage in academic and scientific environments. 4. Be able to adapt Latin expressions into the Slovak language. 5. Apply knowledge of the Latin language correctly in both oral and written professional communication.	
Brief outline of the course: 1. Historical context of the origin and evolution of the Latin language, its speakers, and the culture associated with it. 2. Latin as a literary language in a cultural-historical overview. 3. Latin as a religious language in a cultural-historical overview. 4. Latin as a scientific language in a cultural-historical overview. 5. The Latin alphabet and pronunciation. 6. The structure of the Latin language, its relationship with other languages, and grammatical terminology. 7. Working with a dictionary. 8. Roman names, phrases, commonly used abbreviations. 9. Roman numerals, numbers, and the Roman calendar. 10. Latin inscriptions in the public space. 11. Latin terminology in university life (titles, roles, student anthem).	

12. Latin in the contemporary world (media, film, online space).
13. Latin adapted into modern language.

Recommended literature:

1. STROH, W. R.: Latina je mrtvá, až žije latina. Praha : Oioymenh, 2016.
2. KEPARTOVÁ, J.: Římané a Evropa. Praha : Karolinum, 2005.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: Faculty of Natural Sciences	
Code: 1d-vdsl-01	**Course name:** The Great Works in World Literature I

Type, extent and method of instruction:
Form of instruction: Lecture
Course type: C (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses)
Recommended number of periods: 26
Method of study: combined

Number of credits: 3

Recommended semester/trimester: 2., 4., 6.

Level: I., P

Prerequisites:

Course completion conditions:
The student prepares an essay in which he/she takes a position on the issue discussed.
The final assessment is passed/failed.

Learning objectives:
1. The student will obtain an adequate overview of the origin and functioning of selected representative literary works from several civilizational and cultural areas of ancient literature; will improve in professional terminology.
2. The student will acquire the specific interpretation skills necessary when working with a literary text anchored in a radically different cultural environment, thereby strengthening tolerance towards cultural differences and the will to respect the right to be different.

Brief outline of the course:
The greatest works in ancient Mesopotamia. Sumerian literature, Sumerian-Akkadian synthesis in literature. Ancient Egyptian literature – the greatest works. Ancient Chinese literature; basic Confucian and Taoist texts, old Chinese poetry. Ancient Indian literature - the most important written monuments from the Vedic period and from the so-called historical period, ancient Indian epics. Hebrew (ancient Jewish) literature. The Bible. Ancient Arabic literature; poetry of the pre-Islamic era, the Koran as a religious text and a literary monument. Ancient Greek literature (great works of archaic epic, lyric and drama). Ancient Roman literature, the great works of poets of the classical period (Vergilius, Horatius, Ovidius).
