Course Description

University: Matej Bel University in Banská Bystrica			
Faculty: Faculty of Arts			
Code: 3d-sfi-015		Course name: Chapter in a monograph 1	
Type, extent and method of instruction: Form of instruction: Course type: (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: Method of study: combined			
Number of credits: 10			
Recommended semester/trimester: 1., 2., 3., 4., 5., 6..			
Level: III.			
Prerequisites:			
Course completion conditions: A chapter published or accepted for publication in a monograph.			
Learning objectives: By publishing a monograph chapter, the student: 1. proves their ability to publish their research results in a peer-reviewed monograph 2. demonstrates their skills in the preparation of a monograph chapter 3. develops their ability to communicate with the academic community and effectively disseminate their research results 4. becomes a valid member of the expert community in their field of study			
Brief outline of the course: Independent creation of a chapter to be published in a monograph (including consulting with the DT supervisor).			
Recommended literature: In accordance with the supervisor's recommendations and the monograph topic.			
Language of instruction: Slovak, English			
Notes:student time load: Total: 300 h. Library research: 100 h. Consulting the supervisor: 20 h. Research and writing of the chapter: 150 h. Review procedures and proofreading: 30 h.			
Course assessment The final number of assessed students: 0

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: Faculty of Arts	
Code: 3d-dpo-003	Course name: Dissertation with defence
Type, extent and method of instruction: Form of instruction: Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: Method of study: combined	
Number of credits: 40	
Recommended semester/trimester: 5., 6..	
Level: III.	
Prerequisites:	
Course completion conditions: <p>This subject is a part of the postgraduate programme. The study programme is realized according to an individual study plan, which is prepared by a supervisor together with a student, and is approved by a committee and signed by the dean. The committee-approved dissertation must be submitted in an application for a dissertation defence. Student must regularly consult with a supervisor during the entire period of postgraduate study (150 hours). Without a supervisor's approval, postgraduate students cannot submit their dissertation. The dissertation has also to include text of their postgraduate paper, which they submit to the dissertation defence. The dissertation must meet all formal and content criteria corresponding to this type of thesis. The dissertation defence has to be executed, at the very latest, on the last day of standard postgraduate study determined by the study programme, or in extra postgraduate study, which can be no longer than two years after the standard postgraduate study.</p> <p>The commission for the state exam decides the passing of this subject, which takes into consideration the dissertation assessments by a reader and supervisor, as well as a dissertation defence. The dissertation defence is assessed by each member of the committee. They take into consideration the content of the dissertation thesis, satisfaction of answers on questions in its assessments, and the ability of the student to apply knowledge acquired in the study programme in its defence. Final assessment is the average of each member's grade.</p>	
Learning objectives: Students will: <ol style="list-style-type: none"> 1. Be able to identify key issues, which are important within the topic of their postgraduate research. 2. Comprehend details of those solutions, which are suggested by representative philosophical conceptions in a given area. 3. Be able to compare the considered conceptions and is critically reassessed by adequate argumentation. 4. Become a specialists in the topic of their postgraduate research, in which they suggest their own solutions, suggestions, and improve the existing conceptions. 5. Be acknowledgeable of the latest literature from thematic areas of their postgraduate study. 6. Be able to write specialised text, which meets the content and formal criteria of a scientific monograph 	
Brief outline of the course:	

1. Selection of key works from professional literature according to the topic of postgraduate research in cooperation with a supervisor. 2. Critical processing of selected publication considering the topic of postgraduate research. 3. Regular consultations of dissertation with a supervisor. 4. Writing a final version of the dissertation for submission to its defence.					
Recommended literature: Analysed publications are selected by the supervisor in accordance with the topic of the post-gradual research of the student and the actual state of art of research in the field.					
Language of instruction: slovak and english					
Notes:student time load: 1200 hrs, of which: combined study: 150 hrs library study – research phase: 250 hrs studying selected publications: 400 hrs writing of dissertation: 400 hrs

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: Faculty of Arts	
Code: 3d-sfi-033	Course name: Doctoral Colloquium
Type, extent and method of instruction: Form of instruction: Seminar Course type: (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 Method of study: combined	
Number of credits: 5	
Recommended semester/trimester: 1., 2., 3., 4..	
Level: III.	
Prerequisites:	
Course completion conditions: The student actively participates in the doctoral colloquium organised for the doctoral students at FA MBU – Doctoral Quodlibet (the student presents a paper, actively participates in the scholarly discussion, and writes a paper incorporating the comments received, which will be published in an edited collection). a) continuous assessment: Active participation in the doctoral colloquium – paper presentation, responding to the questions received, discussing other students’ presentations. b) final assessment: Publishing the scholarly text (study) in an edited collection (reviewed).	
Learning objectives: The student can formulate the goals of their research and present their research to a specialised audience (consisting of experts in different fields) in a comprehensible and attractive way; is prepared to participate in a specialised discussion and respond in a clear and matter-of-fact way; can incorporate the recommendations from the discussion in the creation of a comprehensive scholarly text.	
Brief outline of the course: Formulation of the basic theses addressed in the DT. Presentation of a specialised subject matter in a comprehensive way to peers who specialise in different scholarly fields. Preparation of theses and their defence in terms of scholarly discussion. Processing the recommendations from the discussion and their incorporation into the author’s scholarly study. Publishing the scholarly study.	
Recommended literature: Per the supervisor’s instructions and research subject.	
Language of instruction: Slovak, English	
Notes:student time load: 150 h. - Heuristics and research: 70 h. - Preparation of the presentation: 20 h. - Creation of the scholarly text and incorporation of reviewers’ comments: 60 h.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: Faculty of Arts	
Code: 3d-ajd-201	Course name: English in Scholarly Communication
Type, extent and method of instruction: Form of instruction: Seminar Course type: B (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 Method of study: combined	
Number of credits: 5	
Recommended semester/trimester: 3.	
Level: III.	
Prerequisites:	
Course completion conditions: The maximum total number of points obtained for the interim and final evaluation is 100. Credits will be awarded to a student who has obtained at least 65 out of 100 points for meeting the specified conditions. The student has the right to one correction term of the written test, which he must pass at least 65%. a) continuous assessment: During the semester, the student is expected to: 1. active participation in seminars: 0 - 30 points, 2. home preparation for the seminar part: 0 - 20 points. b) final assessment: Final written test: 0 - 50 points in total.	
Learning objectives: The language level required to complete the academic course is English at a level of at least B2 (and higher). The learning outcome will be level C1 and the student will be able to autonomously and actively at this level in academic English: - use key vocabulary and syntactic structures (eg passive verbs) of academic English used in scientific communication, - present their study and research background, i. research project, conference paper, lead a lecture / seminar, etc. using the appropriate terminological apparatus, - prepare an English abstract (journal / proceedings, monographs, dissertations and other qualifications, etc.), - prepare an English summary (summary), - understand the essence of demanding professional texts of longer scope at the C1 level on specific and abstract topics, - translate into English an academic or other professional related text or study from their research discipline.	
Brief outline of the course: Academic English as part of standard English. Specifics of academic English (key terms and structures). Necessity to work with the dictionary. Types of codifying Slovak and English dictionaries (mono- and bilingual dictionaries). Using google compiler and other critical thinking translation tools. Collocations with nouns, adjectives and verbs. How to refer to sources, data, statistics, etc. Research intentions and methods. Structure of the academic text. Abstract. Summary. Presentation preparation.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: Faculty of Arts	
Code: 3d-sfi-034	Course name: Ethics of science and scholarship
Type, extent and method of instruction: Form of instruction: Lecture Course type: B (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 Method of study: combined	
Number of credits: 5	
Recommended semester/trimester: 2.	
Level: III.	
Prerequisites:	
Course completion conditions: The student must acquire at least 50% on all duties in the written in the continuous assessment. Students have the right to one resit of the written test and on resit of the final oral exam. The course assessment corresponds to the A-FX grading scale: A (100 – 94%), B (93 – 87%), C (86 – 80%), D (79 – 73%), E (72 – 65%). Credits are assigned to students who acquire a minimum of 65 points out of a possible 100. a) continuous assessment: Test: 0 - 50 points b) final assessment: final discussion-based exam: 0 - 50 points	
Learning objectives: Students will: 1. be able to identify the essence of moral problem in scholarship and specialised creation, 2. gain understanding of the basic ethical approaches used in scholarship. 3. be able to critically evaluate non-ethical practices in scholarship and creation, 4. put the acquired knowledge in scientific and research into practice, 5. become familiar with the authors and main opinion trends that influence the contemporary discourse in the area of ethics of scholarship.	
Brief outline of the course: Changes in the image of science and science as a system of knowledge and institution in postmodern; science and the place of ethics of science; the idea of technoscience and its criticism; challenging the idea of enlightenment - progress and legitimizing science; changes in the relationship between science and society and the problem of social responsibility. Morality as a normative system, contrary to legal norms. The structure of morality. Relevant ethical theories as a starting point for applied ethics (naturalism vs. antinaturalism in ethics, cognitivism vs. emotivism); ethics of virtues and deontological ethics, utilitarianism and its forms (consequentialism and rule utilitarianism, discourse ethics). Basic ethical dilemmas. Ethics as a philosophical discipline and applied ethics. Basic forms of applied ethics (bioethics, ethics of science and technology). Ethical implications of scientific research and their impact on individuals, humanity, society and nature. Responsibility for science, ethics and code of ethics for the scientific community. Institutionalization of the ethics of science (science, education, politics, public administration, business, etc.). Ethics of science as a search for an answer to the question: technical possibilities and their moral requirements - manifestations in medical ethics and bioethics). The relationship	

between applied ethics and rights. Etc. Institutions for science ethics and international ethical standards for science and research. Forms of moral misconduct in science. Responsibility of the scientist and responsibility in scientific work. The question of authorship as an ethical issue. Honest statements and thanks as ethical forms in science. Grant and team tasks as moral obligations. Rules for publication and scientific discourse. Plagiarism and self-plagiarism. Reviewing as an ethical tool. Responding to fraud in scientific work. Minimizing unethical practices. The importance of ethical regulators in scientific work. Ethics code and ethics committee in scientific and research communities. Situation in the field of the use of ethical tools in scientific institutions in Slovakia.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: Faculty of Arts	
Code: 3d-pds-001	Course name: Examination Paper for the Dissertation Exam
Type, extent and method of instruction: Form of instruction: Course type: (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: Method of study: combined	
Number of credits: 10	
Recommended semester/trimester: 3.	
Level: III.	
Prerequisites:	
Course completion conditions: This course is one of the scientific requirements of the graduate study program. The study program is realized according to the individual study plan, which is drawn up by the supervising teacher in cooperation with the student, agreed upon by committee, and signed by the dean. The processing of the examination paper is one of the conditions for the dissertation exam which needs to be completed by the student during one sitting no later than 18 months after the start of study when the standard length of the programme is 3 years; no later than 24 months after the start of study for external study when the standard length of the programme is 4 years. The examination paper concerns the chosen future dissertation thesis of the graduate's work. Before submitting the examination paper for the dissertation exam, the graduate has to participate on regular consultations (26 hours overall) about the text with the supervising teacher no later than in the third (day study form), respectively in the fourth (external study form) semester of the study. Without the consent of the supervising teacher, the graduate cannot submit the examination paper for the dissertation thesis. The examination paper is assessed in the second reader's review and by the supervising teacher. The supervising teacher also decides in written form about its recommendation for a dissertation exam and thus completion of the course.	
Learning objectives: The students will be able: <ol style="list-style-type: none"> 1. To identify the key problems which are significant for the topic of their postgraduate research, 2. To understand the details of solutions which are designed through the representative philosophical concepts in a particular field, 3. To compare the considered concepts and their critical evaluation by using the valid arguments, 4. To have an overview in the newest literature from the thematic field of their own postgraduate research, 5. To be a specialist in the field of their postgraduate research, in which the students offer their own suggestions, solutions, and improvements of pre-existing concepts 	
Brief outline of the course: <ol style="list-style-type: none"> 1. Selection of the key works from the technical literature according to the topic of the postgraduate research in cooperation with the supervising teacher. 2. Critical processing of the chosen publications according to the topic of the postgraduate research. 3. Regular consultations of the emerging technical examination paper with the supervising teacher. 	

4. Processing of the final version of the examination paper and its submission for a dissertation exam						
Recommended literature: Analysed publications are selected by the supervisor in accordance with the topic of the post-gradual research of the student and the actual state of art of research in the field.						
Language of instruction: slovak and english						
Notes:student time load: 300 hours, of which: Combined study (consultations): 26 hrs Work in library- research phase: 70 hrs Processing of the chosen publications: 90 hrs Writing of the examination paper: 114 hrs						
Course assessment The final number of assessed students: 1

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: Faculty of Arts	
Code: 3d-sfi-001	Course name: Philosophy and Methodology of Social Sciences and Humanities
Type, extent and method of instruction: Form of instruction: Lecture Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 Method of study: combined	
Number of credits: 5	
Recommended semester/trimester: 1.	
Level: III.	
Prerequisites:	
Course completion conditions: The maximum number of points is 100. Credits are assigned to students who acquire a minimum of 65 points out of a possible 100. a) preliminary assessment: Test regarding topic: Possibilities of philosophy in relation to science: 0-10 points Test regarding topic: Unity of science and nature of facts in social science and humanities 0-10 points Test regarding topic: Naturalism vs. Anti-naturalism: 0-10 points Test regarding topic: Varieties of explanation: 0-10 points b) final assessment: Final essay where the students apply the discussed issues for their own research for the dissertation: 0-60 points	
Learning objectives: Students: <ol style="list-style-type: none"> 1. Will be able to identify relevant issues of philosophy and methodology of social sciences and humanities. 2. Will understand the basic solutions of the relationship between philosophy and special sciences. 3. Will be able to critically analyse and compare the possibilities and limits of thematic concept. 4. Will apply the gained concepts in philosophy and methodology of science when writing their own dissertation. 5. Will become familiar with the authors significance in contemporary discussions about methodology of social sciences and humanities. 	
Brief outline of the course: Recurring problems of unity of sciences, classification of sciences and “war of the sciences”. Overcoming the fragmentizing and proliferation of social knowledge and humanities. Possibilities and limits of philosophy with regard to social knowledge (meta-ideology, meta-physics, methodology). Epistemological shifts in the bases of social sciences in the 20th century – analysis (logical turn, linguistic turn, historical-cultural turn, cognitive turn). Action as a priori of social sciences and humanities. Basic theories of action, difference between agency and behaviour. Basic concepts – intentionality, power, rule, human nature, culture. Naturalism vs. Anti-naturalism,	

realism and constructivism. Holism vs. Individualism. Main protagonists and key solutions. Nature of social fact, institutional vs. “brute” facts. Individual and general facts. Explanation and understanding. The history of this conflict and its contemporary forms. Interpretativism as a methodological programme. Aims of social sciences. Issue of rationality and social criticism.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: Faculty of Arts	
Code: 3d-sfi-002	Course name: Philosophy and methodology of social sciences and humanities seminar
Type, extent and method of instruction: Form of instruction: Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 Method of study: combined	
Number of credits: 5	
Recommended semester/trimester: 1.	
Level: III.	
Prerequisites:	
Course completion conditions: The maximum number of points covering continual and final assessment is 100. Credits are assigned to students who acquire a minimum of 65 points out of a possible 100. a) continuous assessment: In-term tests three times during the semester according to the thematic areas: 0 – 20 points Own interpretation of an analysed text: 0 – 30 points b) final assessment: Field-specific analytical essay that applies to the curriculum to one's own dissertation topic: 0 – 50 points	
Learning objectives: Students will be able: <ol style="list-style-type: none"> 1. To apply the knowledge from the course Philosophy, methodology of social sciences and humanities seminar with the analysis of specialised texts, 2. To identify methodological problems within texts and understand the suggested solutions, 3. To identify the philosophy and the methodological orientation from which the suggested solutions in the specific text originates, 4. To independently assess the advantages and limits of the solutions to methodological problems in the analysed text, 5. To write a field-specific essay presenting the philosophical and methodological problem of their dissertation and back up its solution with sounds arguments. 	
Brief outline of the course: <ol style="list-style-type: none"> 1. During the seminar, a selection of publications will be made from various books and journals related to the philosophy and methodology of social sciences and humanities. 2. Doctoral students study the selected texts independently and then present a chosen section in the seminar. 3. Based on the lecture and the presentation, the issues are addressed and interpreted in detail during the seminar and doctoral students practise argumentation in discussions. 4. A required written final field-specific essay related to and developing the methodological and philosophical aspects of the dissertation topic. 	

The analysed texts will be chosen by the teacher based on standard solutions and concerning the current state of research in the field.

Course Description

University: Matej Bel University in Banská Bystrica			
Faculty: Faculty of Arts			
Code: 3d-sfi-014		Course name: Research paper in a foreign peer-reviewed scientific journal or in an edited volume(other than conference proceedings) 2	
Type, extent and method of instruction: Form of instruction: Course type: (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: Method of study: combined			
Number of credits: 10			
Recommended semester/trimester: 1., 2., 3., 4., 5., 6..			
Level: III.			
Prerequisites:			
Course completion conditions: A scholarly study published or at least officially accepted for publication in a foreign peer-reviewed scholarly journal or non-conference proceedings.			
Learning objectives: By publishing their study in a foreign peer-reviewed scholarly journal or non-conference proceedings, the student 1.proves their ability to publish their research results in a peer-reviewed journal or proceedings 2 demonstrates their skills in the preparation of a research study 3. develops their ability to communicate with the academic community and effectively disseminate their research results 4. becomes a valid member of the expert community in their field of study.			
Brief outline of the course: Independent creation of a study to be published in a foreign peer-reviewed scholarly journal/non-conference proceedings (including consulting with the DT supervisor).			
Recommended literature: In accordance with the supervisor's recommendations and the research subject.			
Language of instruction: Slovak, English			
Notes:student time load: Total: 300 h. Library research: 100 h. Consulting the supervisor: 20 h. Research and writing of the study: 150 h. Review procedures and proofreading: 30 h.			
Course assessment The final number of assessed students: 0

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: Faculty of Arts	
Code: 3d-sfi-030	Course name: Scientific publications from (A) category
Type, extent and method of instruction: Form of instruction: Course type: (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: Method of study: combined	
Number of credits: 15	
Recommended semester/trimester: 1., 2., 3., 4., 5., 6..	
Level: III.	
Prerequisites:	
Course completion conditions: The subject is a part of the scientific area of a doctoral student's study program. The study program is realized according to the individual study plan, which is prepared by the supervisor in cooperation with the postgraduate student, and is approved by committee and signed by dean. The scientific publication of an (A) category is defined according to the accreditation committee SR criteria (criteria of assessment of attributes of a research report). Text preparation and its editing to the publishable form is conditioned to text consultations with the supervisor and they are regularly organized during the entire doctoral study (total of 50 hours). The subject is considered completed only when the doctoral student publishes a scholarly work from A category	
Learning objectives: Students: <ol style="list-style-type: none"> 1. Are able to identify key problems, which are important for the topic of their postgraduate research, 2. Understand the details of the solutions, which suggest representative philosophical conceptions in a given sphere. 3. Can compare the considered conceptions and evaluate them critically by means of valid argumentation, 4. Have an overview of the newest literature of the thematic field of their postgraduate research, 5. Are specialists in the field of their postgraduate research and bring their own suggestions, solutions, and improvements of existed conceptions. 6. Are able to create and publish scholarly work in (A) category. 	
Brief outline of the course: <ol style="list-style-type: none"> 1. Selection of key works of specialized literature according to the topic of postgraduate research in cooperation with the supervisor. 2 Critical processing of selected publications with respect to the postgraduate research topic. 3. Regular consultations of the scholarly work with the supervisor. 4. Preparation of the final version of the scholarly work and its publication. 	
Recommended literature: The analysed publication will be chosen by the teacher based on the current state of research in the field.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: Faculty of Arts	
Code: 3d-sfi-035	Course name: Selected Problems in Systematic Ethics
Type, extent and method of instruction: Form of instruction: Lecture / Seminar Course type: B (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 13 / 13 Method of study: combined	
Number of credits: 15	
Recommended semester/trimester: 2.	
Level: III.	
Prerequisites:	
Course completion conditions: The maximum number of points consisting of continuous and final assessment is 100. Credits are assigned to the student who acquires the minimum of 65 points out of the possible 100 for completing the given requirements. a) continuous assessment: Processing the selected text chapters: 0–25 p. Presentation of the specialised essay: 0–25 p. b) final assessment: Final specialised essay and its defence: 0–50 p	
Learning objectives: The student <ol style="list-style-type: none"> 1. has complex knowledge of morality as a system, morality sources, and ethics a systematic theoretical reflection of morality; the axiological starting points of ethics and values as the background for moral judgement including generalisation, justification, and reasoning. 2. can analyse a specific morality system and use the respective categories, formulate moral judgements based on deduction and induction, critically reflect the reasons for moral actions using the respective categories, justify moral norms (reasoning, referring to an authority), and evaluate the pros and cons of ethical theories and their integration into decision-making and evaluation models. 3. can address and evaluate practical problems in terms of different value perspectives, evaluate and determine way how theoretical ethical models can be integrated into decision-making. They can justify their own moral convictions as well as norms (set by an authority or in a discourse). They can perform ethical analysis on different levels. 	
Brief outline of the course: Ethics vs. morality. (Sources of morality and reasoning. Autonomous vs. heteronomous morality.) The conceptual system of ethical theory (classification of theoretical ethics). History of ethics – a typology of moral reasoning. Descriptive vs. normative ethics: (methodological distinctions relevant for empirically based and normative ethics). How to justify the binding nature of moral norms? (normative ethical theories representing the two directions in ethics – teleological and deontological theories). Metaethics – the subject of metaethics and its key problems; reasoning in ethics, universal vs. relative, facts and values, value subjectivism, value objectivism, the meaning of “good”, altruism vs. egoism. Moral responsibility	

– meanings and conditions. Applied ethics (the social and historical contexts of its emergence, subject matter, theoretical vs. applied ethics, specific attributes of applied ethics and the plurality of ethical discourses). Identifying the methods in the contemporary applied ethics and the levels of ethical analysis (foundationalism, coherentism, and contextualism as methodological paradigms in ethics).
