Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: Faculty of Arts	
Code: 2e-ozvstv-103	Course name: Continuous Practice/Observation Practice
Type, extent and method of instruction: Form of instruction: Prax Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26s Method of study: combined	
Number of credits: 2	
Recommended semester/trimester: 1.	
Level: II.	
Prerequisites:	
Course completion conditions: a) continuous assessment: Continuous assessment: attending the observations – 50 points b) final assessment: Final assessment: portfolio of the materials concerning teaching practice – 50 points	
Learning objectives:	
Brief outline of the course: Brief outline of the course: During the observations of students in the lessons, it is recommended to observe: the readiness of the class and of the pupils for schooling (neatness of the classroom, arrival of teacher to the class, preparation of the teaching aids and technical means and their use in the lessons, etc.). The readiness of the pupils after the bell rings, welcoming the teacher (behaviour of the teacher and the pupils, method of checking class attendance, etc.). Checking homework (when during the lesson and how it is carried out, difficulty and extent of the homework, frequency of assigning homework, used forms and methods of checking, orientation of the homework in the creative thinking of the pupils, how the theoretical knowledge is applied to the practical activities, verbal evaluation and classification of pupils' performance, etc.). Checking out the pupils' knowledge (the method of checking, its content and extent), activation of the pupils when individually examining a pupil, orientation of the teacher on the creative thinking of the pupils, the way of applying the theoretical knowledge on practical activities, verbal evaluation and classification of pupils' performance, etc. Setting out the topic and aim of the lesson (how the pupils are motivated for active learning, use of interdisciplinary relations, etc.). Exposition of the course material (used forms and means of work, activity of the teacher and pupils, modernizing the content, forms and means of the work, etc.). Fixating the new course material (organizing the fixing of the course material, types of fixation methods, their relationship towards exposition methods, orientation of the pupils' attention on the possibilities of the practical application of new knowledge into practice, formulating and the means of giving checking questions, use of technical means for the fixation of the course material, feedback during the fixation, etc.). Homework (how the teacher assigns homework, motivation to	

do homework, individualised, individual, pair and group homework, etc.). The teacher (teacher's communicative skills, objectivity, demands, respecting the wants of pupils, respecting personality possibilities, gesticulation and facial expressions, their neatness, motion in the classroom, their reactions to unexpected impulses, their temperament, voice intensity, etc.).

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: Faculty of Arts	
Code: 2e-ozvstv-104	Course name: Continuous Practice/Performance Practice 1
Type, extent and method of instruction: Form of instruction: Prax Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26s Method of study: combined	
Number of credits: 2	
Recommended semester/trimester: 2.	
Level: II.	
Prerequisites:	
Course completion conditions: Course completion conditions: During the semester, the students will attend the practice and there they will prove their practical skills as well as theoretical knowledge in organizing lessons as a PE teacher. The maximum number of points covering a continual and final assessment is 100. The course assessment corresponds to the A-FX grading scale: A (100 – 94%), B (93 – 87%), C (86 – 80%), D (79 – 73%), E (72 – 65%). Credits are assigned to the student who acquires a minimum of 65 points out of a possible 100. a) continuous assessment: Continuous assessment: 100% attendance at the teaching practice – observations and individual performances: 50 points b) final assessment: Final assessment: materials portfolio concerning the teaching practice: - written records of the didactic observations of the lessons – observations of the training teacher: 20 points - written preparations for direct teaching, consulted and evaluated by a teacher from the Department of Physical Education and Sports, including the didactic analysis of the course material and analysis with the training teacher of a primary school: 30 points	
Learning objectives: Course aims: Students will: <ol style="list-style-type: none"> 1. Remember the theoretical knowledge about the learnt course material as the basis for the practical part of the university preparation. 2. Have general knowledge about the basic issues of the theory and didactics of the PE. 3. Be able to show and use the technique of practicing exercises correctly. 4. Be able to prepare for active performance in PE classes. 5. Be able to work with specialised literature. 	
Brief outline of the course: Brief outline of the course:	

Orientation in actual school practice, in the work of teachers and pupils and in the individualities of primary and secondary school pupils.
Integration and confrontation of the theoretical and practical part of the university preparation, carrying out of the teaching performances and real education activities in primary and secondary schools, broadening of the motivation for further study and self-education.
Perception of pedagogical and psychological phenomena in an actual school situation, their recording and interpreting; psychological and pedagogical thinking.

University: Matej Bel University in Banská Bystrica	
Faculty: Faculty of Arts	
Code: 2e-ozvstv-101	Course name: Didactics of Physical and Sport Education
Type, extent and method of instruction: Form of instruction: Lecture / Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 13 / 13 Method of study: combined	
Number of credits: 4	
Recommended semester/trimester: 1.	
Level: II.	
Prerequisites:	
Course completion conditions: Course completion conditions: The course assessment corresponds to the A-FX grading scale: A (100 – 94%), B (93 – 87%), C (86 – 80%), D (79 – 73%), E (72 – 65%). Credits are assigned to the student who acquires a minimum of 65 points out of a possible 100. a) continuous assessment: Continuous assessment: seminar paper – thematic plan and preparation for teaching: 0 – 40 points b) final assessment: Final assessment: written exam: 0 – 60 points	
Learning objectives: Course aims: Students will: <ol style="list-style-type: none"> 1. Use the acquired knowledge in other courses, e.g. in the theory and didactics of recreational sports, in continuous practice, etc.. 2. Be able to use the acquired knowledge in the didactics of separate sports. 3. Apply the acquired knowledge in professional practice. 4. Assess their knowledge about PE didactics and be able to apply them in the PE process. 5. Assess themselves and each other in PE didactics. 6. Write seminar paper. 	
Brief outline of the course: Brief outline of the course: Education process in the PE – the PE process. Essence, basic factors and structure of PE. General and specific features of PE. Learning and teaching PE. Improving movement abilities in PE. Education influence in the PE process. Pupil in PE. PE teacher. PE projects in basic and high school. Conditions of the PE process. Assessment in PE. Importance of assessment. Types of assessment. Assessment of physical development and general movement abilities of pupils. Assessment of knowledge. Assessment of the pupil relationships towards PE, social expressions	

of pupils. Organizational forms in PE, didactical forms. PE lesson. Typology of PE lesson. Lesson structure. Planning in school PE. PE in elementary and high schools.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: Faculty of Arts	
Code: 2e-ozvstv-001	Course name: Methodology of Sports 1 (Sports Games, Swimming)
Type, extent and method of instruction: Form of instruction: Lecture / Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 13 / 52 Method of study: combined	
Number of credits: 4	
Recommended semester/trimester: 2.	
Level: II.	
Prerequisites:	
Course completion conditions: During the semester, the student undergoes verification of the level of didactic skills and methodological knowledge in conducting a lesson in sports, movement games and swimming. The prerequisite is the preparation for the lesson of sport and movement games and swimming according to the assigned topic. Successful completion of the examination in didactics and methodology of sport and movement games and swimming.	
a) continuous assessment: Verification of the level of didactic skills in conducting a lesson in sport and movement games: practical output of the student according to the assigned topic - 0-20 points (minimum 13 points). Verification of the level of didactic skills in conducting a lesson in swimming: practical output of the student according to the assigned topic - 0-20 points (minimum 13 points).	
b) final assessment: Written test on didactics and methodology of sport and movement games: 0-30 points (minimum 20 points). Written test on the didactics and methodology of swimming: 0-30 points (minimum 20 points). The course assessment corresponds to the A-FX grading scale: A (100 – 94%), B (93 – 87%), C (86 – 80%), D (79 – 73%), E (72 – 65%). Credits are assigned to the student who acquires a minimum of 65 points out of a possible 100.	
Learning objectives: The student acquires (in terms of knowledge): <ul style="list-style-type: none"> - Ability to apply the acquired knowledge and skills from sports, movement games and swimming in other subjects (e.g., as part of a continuous practice) - The ability to use the correct terminology of individual sports, movement games and swimming when explaining the curriculum. - Able to teach the basic game activities (HČJ, HK and HS) in the sports games of football, volleyball, basketball, handball, and floorball correctly according to the knowledge of the content of the game. - Able to use adequate movement games from the point of view of the focus and structure of the lesson and to apply them methodically correctly in the classroom. - Able to teach the basic skills of swimming methodically correctly. 	

The student acquires the ability (in terms of understanding):

- Apply adequate procedures and appropriate didactic methods and forms of teaching (MOF) of sports games according to the level of the pupils.
- Identify and differentiate swimming skills according to the needs of the pupils.

The student will acquire the ability (in terms of application, evaluation, and creation):

- Name and describe the content of a game and practically in a game (match) demonstrate and apply the technique of basic game actions (HČJ, HK and HS) in individual sports games (football, volleyball, basketball, handball, and floorball).
- Select adequate movement games to develop movement skills and the acquisition of movement skills from the sports.
- Apply individual movement skills from sports, movement games and swimming to the development of their own teaching project for teaching in primary and secondary school.
- Evaluate his/her strengths and weaknesses in teaching sports, movement games and swimming, can use the principle of feedback, whether from the practitioner or the content of the teaching, can evaluate the level and quality of methodological outputs of classmates.
- Integrate the acquired knowledge and skills into different pedagogical situations.

Brief outline of the course:

- The importance and position of sports and physical games in a person's life (school and leisure)
- History of sports games and swimming
- The position of sports, movement games and swimming in the school education system (ISCED1-3)
- Basic terminology in sports, movement games and swimming
- Movement games in the preparatory part of the lesson
- Movement games in the main part of the lesson
- Didactic procedures for practicing and improving game activities (HČJ, HK and HS) in sports games - football, volleyball, basketball, handball, and floorball
- Didactics of swimming (objectives, content forms, means, methods and procedures)
- Organisational and methodological units of basic swimming
- Methodology of individual swimming methods, starts and turns
- Principles of fair-play, sports and movement games and their determinants for the health and healthy development of the individual - Game performance (IHV and HVD) in sports games and the basics of its diagnostics (motor tests, control exercises, etc.) in school physical and sports education.

Course completion conditions: During the semester, the student will complete the verification of the level of didactic skills in didactics of athletics, didactics of gymnastics and didactics of combats in the conduct of the classroom lesson and verification of the level of practical skills in downhill and cross-country skiing and snowboarding. a) continuous assessment: Practical presentation of the lesson: athletics - 10 points (min.6,5 points), gymnastics - 10 points (min.6,5 points), combats - 10 points (min.6,5 points), Verification of the level of practical skills (downhill skiing, cross-country skiing, snowboarding) in conducting lessons in the ski education and training course 30b (min. 19.5 points), Written test: Athletics - 10b (min. 6,5b), Gymnastics - 10b (min. 6,5b), Combats - 10b (min. 6,5b), Downhill and cross-country skiing and snowboarding - 10b (min. 6,5b). b) final assessment: On the basis of a continuous assessment. The course assessment corresponds to the A-FX grading scale: A (100 – 94%), B (93 – 87%), C (86 – 80%), D (79 – 73%), E (72 – 65%). Credits are assigned to the student who acquires a minimum of 65 points out of a possible 100.	
Learning objectives: Learning objectives: The student acquires (in terms of knowledge): <ul style="list-style-type: none"> • Ability to apply the acquired knowledge and skills from athletics, gymnastics, combats, downhill and cross-country skiing and snowboarding in other subjects (e.g., as part of a continuous practice) • The student is able to methodically teach the basic skills of athletics, gymnastics, combats and self-defence, downhill and cross-country skiing and snowboarding. The student acquires the ability (in terms of understanding):	

- Identify and differentiate athletic, gymnastic, and combat exercises.
 - Work with the content of downhill and cross-country skiing and snowboarding instruction in the basic means of developing motor skills and acquiring motor skills from these sports.
- The student will acquire the ability (in terms of application, evaluation, and creation):
- Apply individual movement skills from athletics, gymnastics, combats, downhill and cross-country skiing, and snowboarding to the development of a custom teaching project for elementary and middle school instruction.
 - Evaluate the level and quality of the methodological outputs of classmates in athletics, gymnastics, combats and downhill and cross-country skiing and snowboarding.
 - Integrate acquired knowledge and skills into a variety of teaching situations.

Brief outline of the course:

Didactics of athletics:

- Methodological outputs of students focused on the training of individual athletic disciplines and preparatory athletic exercises.
- Theoretical knowledge of the history, systematics, types, and significance of athletics.
- General fundamentals of the technique and didactics of athletic disciplines.
- Technique, methodology of individual athletic disciplines.
- Short distance running, middle and long distance running, athletic walking, hurdles, relay races; jumping, and throwing. Organization, refereeing of athletics competitions.
- Fundamentals of sports training in athletics and development of movement skills and athletics.

Didactics of gymnastics:

- History of gymnastics, gymnastics in Slovakia.
- Didactics of general gymnastics (basic, fitness, rhythmic and health).
- Gymnastic sports - characteristics.
- Movement means of gymnastics.
- Construction of gymnastic units with different content.
- Nomenclature of physical exercises.

Didactics of the combats:

- The didactics of combat sports. Didactics of the combat sport and self-defense.
- Didactic use of preparatory combats (combat lifts, resistances, and combat games) in the classroom.
- Didactics of practicing and improving the falling technique (falling backwards, falling sideways, falling forwards) -methodological outputs.
- Didactics of practicing and improving basic technical activities of combat sports (karate, wrestling, judo)- methodological outputs.
- Didactics of training and improvement of basic techniques of self-defense - methodological outputs.

Didactics of downhill and cross-country skiing and snowboarding:

- The importance and position of downhill and cross-country skiing, snowboarding and sports games in human life (school and leisure).
- Organization of skiing and snowboarding education and training course.
- Preparatory exercises and movement games for cross-country skiing - practical outcomes.
- Preparatory exercises and movement games for downhill skiing - practical outcomes.
- Preparatory exercises and movement games for snowboarding - practical outcomes.
- Methodical series of basic cross-country training - practical outputs.
- Methodological series of basic downhill training - practical outputs.
- Methodological series of basic snowboard training - practical outputs.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: Faculty of Arts	
Code: 2e-tre-007	Course name: State Exam Master Thesis with Defence
Type, extent and method of instruction: Form of instruction: Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: Method of study: combined	
Number of credits: 20	
Recommended semester/trimester: 3., 4..	
Level: II.	
Prerequisites:	
Course completion conditions: The state examination consists of two parts: 1. Defence of the master's thesis. The master's thesis supervisor and opponent will write an assessment of the thesis and propose an evaluation. The state examination committee comprehensively evaluates the quality of the master's thesis based on the assessments and student's defence of the thesis. 2. The independent part of the state examination from the Theory and Didactics of Physical Education. (The course has a separate information list with specified requirements for the state examination.) The exam is based on an oral discussion, questions formulated to encompass a more broadly conceived problem related to the master's thesis. The solution to this problem requires that the student have the necessary knowledge listed in the theses for the state examination. These are based on the socio-scientific, psychological-pedagogical and subject-didactic context of the physical education pedagogy field. The conditions for receiving the A to E, or FX assessment from the committee, after taking the content of the state examination into account, are specified in the theses for the state examination.	
a) continuous assessment: None	
b) final assessment: The state examination consists of two parts: 1. Defence of the master's thesis. The master's thesis supervisor and opponent will write an assessment of the thesis and propose an evaluation. The state examination committee comprehensively evaluates the quality of the master's thesis based on the assessments and student's defence of the thesis. 2. The independent part of the state examination from the Theory and Didactics of Physical Education. (The course has a separate information list with specified requirements for the state examination.) The exam is based on an oral discussion, questions formulated to encompass a more broadly conceived problem related to the master's thesis. The solution to this problem requires that the student have the necessary knowledge listed in the theses for the state examination. These are based on the socio-scientific, psychological-pedagogical and subject-didactic context of the physical education pedagogy field. The conditions for receiving the A to E, or FX assessment from the committee, after taking the content of the state examination into account, are specified in the theses for the state examination.	

Learning objectives:

y passing the state examination and defending the master's thesis students will be able:

- To gain bearings in knowledge related to the problem addressed in the master's thesis and broader relations of the given subject matter.
- To understand the contexts of the problem at hand, formulate preliminary conclusions from the master's thesis and clear recommendations for practice.
- To understand the mutual relations between various knowledge from individual disciplines of university studies.
- To utilise relevant specialized sources and from these identify important notions for the context of the thesis.
- To utilise theoretical knowledge of the subject matter in practical diagnostic and didactic applications.
- To utilise basic pedagogical, psychological and social relations to explain the problem at hand.
- To apply principles of bibliographic and citation standards.
- To analyse the problem at hand in the logical, systematically selected and mutually interconnected structural parts of the thesis
- To design and verify teaching methods and education programs to solve the problem addressed in the master's thesis, or design and carry out research and interpret the results.
- To critically work with the theoretical background of the problem at hand, synthesise it in the given context and use it in specialised communication while reasoning and defending their own views on the problem at hand.
- To create a consistent specialised, theoretical-didactic or theoretical-experimental text containing the creative utilisation of relevant specialised sources, their own unique thoughts and possible solutions to the problem at hand from the field of physical and sports education didactics in schools.

Brief outline of the course:

Specialised knowledge of the problem addressed in the master's thesis, of its international, social, broader psychological-pedagogical context. Didactic transformation of chosen theoretical knowledge in the given specialisation. Research methodology of the problem at hand. Integration of knowledge from the individual disciplines of university studies and the broader relations of the qualification course's theoretical background, according to the theses for the state examination. Integration of education and practical theory on the example of the issue addressed in the master's thesis. Specialized communication and reasoning. Work with literature, bibliographic and citation standards.
