Knows methods and techniques of convergent and divergent thinking, design thinking, learning through collaborative problem-solving, project-based learning, and challenge-based learning. 3. Is able to design a Business Model Canvas for their future business or team of collaborators. 4. Is able to test the viability of the model and propose possible changes. 5. Is able to evaluate individual components of the business model, compare them with competitors, predict future value, and assess the benefits/revenues of the business. 6. Collaborates effectively with innovators and other inspiring successful entrepreneurs. 7. Is able to apply the latest ICT tools in teamwork as well as in the final processing of a team solution, such as Padlet, Jamboard, Miro, Looka, BioRender, ScreanPal, Genially, Pecha Kucha, Wordwall, and other applications. 8. Demonstrates the ability to work in a team and clearly present their position supported by strong arguments.	
Brief outline of the course: Techniques for searching for business ideas (IF matrix, Crazy 8s, and “pinstagoogling”). Finding at least three own business ideas. Knock-out criteria for business ideas. Selection of a suitable idea with top potential, which the student will further develop. Business Model Canvas. Visual outline of one’s own business idea. Competitor analysis on the domestic and foreign market. Selection and analysis of the most relevant competitors, differentiation of one’s own idea from competitors, and definition of at least two strong competitive advantages.	

Business calculator. Basics of pricing, costs, demand, production volume, consideration of direct, indirect, and variable costs, margin, and setting the price of one's own product/service.

Demo slide + reflection on and coordination of prototype development and market research

Visual design and wording of the demo slide as presentation material for the customer. Creation of a product/service prototype, including description, parameters, benefits, and sales arguments.

Implementation of research and incorporation of customer feedback.

Pitch deck or investor presentation. Main requirements of this type of presentation, structure, visualisation, delivery, formulation of key ideas and action steps as a CTA — Call to Action — with the aim of generating interest.

Psychology of sales. Fundamentals of sales skills, definition of the target customer group, identification of customer needs, creation of tailor-made solutions and argumentation, detection of buying signals during sales, and techniques for closing a sale.

The entrepreneur's journey. A personal story of a successful entrepreneur: successes, failures, lessons learned, sharing know-how and personal experience. Sharing specific recommendations for successful entrepreneurship.

Methods and possibilities of financing business ideas. Practical demonstration and presentation of specific options and procedures for obtaining funding for beginning entrepreneurs.

Competition and final presentations of business ideas

Type, extent and method of instruction: Form of instruction: Practical Course type: C (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 Method of study: combined	
Number of credits: 3	
Recommended semester/trimester: 1., 3., 5.	
Level: I.	
Prerequisites:	
Course completion conditions: Overall evaluation: To obtain grade A, a total of at least 94 points is required; for grade B at least 87 points; for grade C at least 80 points; for grade D at least 73 points; and for grade E at least 65 points. Credits will not be awarded to a student who receives fewer than 30 points in any component. a) continuous assessment: A portfolio of the student's artworks with reflection from a pedagogical perspective; ongoing completion of seminar activities and tasks in LMS Moodle.	
Learning objectives: There are two possible study plans for meeting the course requirements: Basic plan – consisting of theoretical preparation (resources in LMS Moodle) and practical training (in the PF UMB ceramics studio). The student: 1. demonstrates knowledge of safety principles when working in a workshop, 2. understands the origin of modeling clay, can describe its properties, and select suitable material, 3. understands the principle of recycling and can prepare clay for modeling, 4. can prepare the working environment, take care of tools, and maintain clay, 5. practices basic techniques of working with clay (e.g., slab building, ...), 6. recognizes selected surface treatments of ceramics, 7. presents a chosen type of ceramics from art history, 8. documents and reflects on their creative processes and arrives at their own solution to a given task. Extended plan – implemented through service-learning participation in leading a ceramics and natural materials creative club for children (ages 6–13). In addition to the basic outcomes (1–8), the student: 9. is able to guide children in working with clay, collaborate, and reflect on the creative process from a pedagogical perspective, 10. evaluates the suitability and feasibility of an art activity for a selected child's age, including preparation demands on the teacher and the creative potential of the activity, 11. develops a portfolio of art activities applicable in extracurricular education for children.	
Brief outline of the course: 1. Safety principles at work 2. Creating with materials from the Earth 3. Techniques of working with clay 4. Ceramics in art history

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: Faculty of Arts	
Code: 1d-lin-024	Course name: German Lexical Seminar
Type, extent and method of instruction: Form of instruction: Seminar Course type: B (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 Method of study: combined	
Number of credits: 5	
Recommended semester/trimester: 2., 4., 6.	
Level: I.	
Prerequisites:	
Course completion conditions: Attending the seminars is mandatory (no more than 3 absences), preparation for the seminars – fulfilling the given assignments, active participation, acquiring the minimum of 65 points out of a possible 100 for the test. The course must be enrolled through AIS. The student has the right to one resit of the written test. The course assessment corresponds to the A-FX grading scale: A (100 – 94%), B (93 – 87%), C (86 – 80%), D (79 – 73%), E (72 – 65%). b) final assessment: test: 100%	
Learning objectives: Students will be able to: 1. identify subtle semantic and stylistic differences (nuances) of two German words which are similar in content, 2. differentiate the meaning of formally similar German words (e. g. different prefixes and the same root of the word) as well as within the language pair German – Slovak (e. g. faux amis – false friends), 3. remember the selected phrases and idioms in German and Slovak and they will be aware of their specifics on the expressional level, 4. apply the aforementioned knowledge in the process of text production and reception, i.e. deciding the adequate German or Slovak variant in the context of a translation.	
Brief outline of the course: Work with the basic word classes (mostly nouns, adjectives and verbs), idioms and phrasal units – the emphasis is put on the peculiarities typical for the mentioned word classes and phrasal units from the contrastive point of view within the language pair German – Slovak: e.g. often confused words – similarly sounding words that possess different meaning, e.g. words which have the same root and different affixes, synonymous verbs – one Slovak expression has more German expressions but they cannot be used interchangeably; phrasal units and their equivalents in the opposite language pointing out the discrepancy between form and content.

Course completion conditions: attendance at lectures	
Learning objectives: The student: 1. understands the importance of intellectual property in business activities. 2. understands the basic framework of intellectual property law in the Slovak Republic, the EU, and at the regional/international level, including the costs associated with its protection. 3. is able to identify the creation of intellectual property within a company and establish basic processes for its protection. 4. is capable of selecting an optimal intellectual property protection strategy with regard to the type of product/service. 5. is able to apply the basic principles of intellectual property commercialization. 6. is able to identify and prevent infringements of the intellectual property rights of other entities.	
Brief outline of the course: The aim of the course is to provide students with theoretical and practical knowledge of intellectual property and the importance of its protection in business practice. The course focuses on the creation of intellectual property within a company, strategies for its protection, and possibilities for its effective use and commercialization. It also addresses the significance and benefits arising from intellectual property protection for current and future entrepreneurs, as well as examples of good practice. Experts in the field of intellectual property and industrial property protection will introduce students to the possibilities of protecting brands, ideas, innovations, designs, patents, and copyrighted works, including computer programs and software. Students will gain knowledge about when and how intellectual property should be protected in Slovakia and abroad, how it can be commercialized, and how intellectual property rights can be exercised, enforced, and respected in business activities. The course will also include practical examples and analyses of disputes concerning patents, trademarks, designs, and software based on cases from the practice of the Industrial Property Office of the Slovak Republic. Experts from the Industrial Property Office of the Slovak Republic will participate in the lectures.

Course completion conditions: A student has right for one resit of a final oral exam. a) continuous assessment: assignment in course of a semester: 0-20 points mid-term oral exam: 0 – 30 points b) final assessment: oral exam (interpreting): 0-50 points, for all parts together (assignments in course of a semester, oral exam): 0 – 100 points	
Learning objectives: Students will be able to acquire basic practical skills in consecutive and simultaneous interpreting and apply the acquired theoretical knowledge (e.g. specific interpreting strategies) of interpretation in practice.	
Brief outline of the course: The system of exercises in consecutive and simultaneous interpreting is focused on the developing of skills and habits in apperception of segment produced communiqués and presentation of segments in the target language. Exercises include reciprocal interpreting: Slovak - German, German- Slovak and they are in progress with the gradual gradation of linguistic complexity of the texts, speech rate and the severity of the interpreting conditions. The emphasis is on the removal of language deficit and creation of one's own habits of interpreting reactions. Selected communiqués with lower degree of linguistic difficulty, but this linguistic difficulty is gradually increasing and the main component of the exercises is expansion and refining of vocabularies when developing the interpreting competence. The main theme is "the European Union" and the terminology associated with it, so the majority of texts and language communiqués is focused on this field.

They will be able to differentiate the literary history in the diversity of its phenomena and social and historical connections. They will apply the acquired knowledge in further development of literary, analytical and interpretation skills on the basis of analyses and interpretations of selected works. Students will be able to interpret the literary works from the thematic, linguistic and compositional point of view and to judge their aesthetic and literary value.	
Brief outline of the course: Development of the literary history of the German-speaking countries in the 18th and 19th century. Overview and characteristics of the literary periods (The Enlightenment, the Sturm und Drang movement, classic German literature, romanticism, literature of the Vormärz period, literature of the Biedermeier, realism in the 2nd half of the 19th century, naturalism in the German literature), life and works of the most important German writers of this period (G. E. Lessing, J. W. Goethe, F. Schiller, Novalis, Joseph von Eichendorff, the brothers Grimm, E. T. A. Hoffmann, H. Heine, T. Fontane, T. Storm, G. Keller, G. Hauptmann, etc.). Literary and scientific analysis and interpretation of the selected literary works of all genres of German, Austrian and Swiss writers of the 18th and 19th century and learning the social, historical and literary context of the texts, aesthetic position of the authors as well as the specifics of their works. It is expected that students will individually read	

the original sources and so they will acquire the required knowledge. A necessary course completion condition is reading of the primary texts as part of the self-study and acquiring basic terminological knowledge and analytical skills that will be applied and developed when interpreting literary texts.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: Faculty of Arts	
Code: D_1_ZpUzUdP_cup	Course name: Skills for Success: From University to Practice
Type, extent and method of instruction: Form of instruction: Seminar Course type: C (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 Method of study: combined	
Number of credits: 3	
Recommended semester/trimester: 3., 5.	
Level: I.	
Prerequisites:	
Course completion conditions: a) Attendance and active participation in classes, with a maximum permitted absence of one 160-minute session – 30% b) Submission of partial assignments for each thematic area – 10% c) Final group presentation on a selected topic from the course syllabus, demonstrating the ability to apply the acquired skills to specific real-life situations, including feedback to team members – 60% If a student does not successfully complete the course in the regular assessment period, they will be required to complete an individual assignment and subsequently present their work in a form determined by the examiner, accounting for 100% of the final assessment.	
Learning objectives: The course focuses on the development of key transferable skills, including soft skills and power skills, required for graduates' successful transition into professional practice in companies, shared service centres, consulting firms, financial institutions and the public sector. In cooperation with the American Chamber of Commerce in the Slovak Republic, AmCham Slovakia, and participating business entities, the course reflects current employer expectations regarding graduates of economics-oriented study programmes. Particular emphasis is placed on business communication, teamwork, problem-solving, working with information, and decision-making under uncertainty. Upon successful completion of the course, students will be able to: • communicate effectively in a professional and multicultural working environment, including communication in English; • work in teams and contribute to solving practical business-related problems, such as process improvements, customer situations and project-based tasks; • argue, present proposed solutions and defend their opinions based on data and facts; • handle feedback, conflict situations and performance pressure in the workplace; • apply basic principles of critical thinking, decision-making and time management in economic and managerial practice; • operate effectively in the environment of shared service centres, business service centres and the corporate culture of international companies.	

The course was developed in cooperation with the American Chamber of Commerce in the Slovak Republic, AmCham Slovakia, and the Banská Bystrica Self-Governing Region. The Slovak version of the course will be delivered by professional soft-skills lecturers, such as Learning and Development Managers, Education Specialists and Certified Coaches, from companies associated within the Business Service Center Forum, BSCF, of AmCham Slovakia, including Accenture, IBM, GAMO, GlobalLogic, KPMG and potentially other companies.

Total: 0–70 p. b) final assessment: completing the final self-reflective evaluation report addressing the activities performed and their results including the relevant appendices (activity plan, promotion, list of attendees, photo documentation), and recommendations 0–30 p. The grading scale: A (100–94%), B (93–87%), C (86–80%), D (79–73%), E (72–65%). Credits are assigned to the student who collects the minimum of 65 points (%).	
Learning objectives: The student: 1. is able to identify the needs and problems of the tutored students 2. can communicate properly within the student community 3. can independently provide consulting activities 4. navigates the academic environment well enough to provide useful advice 5. creates a communication platform on a social network and uses it efficiently 6. can evaluate other students' needs 7. can select appropriate forms of promotion of their activities 8. can evaluate the benefit of their creative activities and present their results.	
Brief outline of the course: The tutor cooperates with the department ECTS coordinators in consulting and providing information on study issues to students in accordance with the study rules and valid legislation.	

They self-study the study regulations. In cooperation with the study advisor, they advise other students on the selection of courses and creation of study plans in AiS2. They share their own experience with the selection and acquisition of study literature, studying for exams, individual study possibilities, scholarships, and participating in student organisations. They identify, analyse, and evaluate the tutored students' needs (e.g. via an online survey). In cooperation with the department study advisor and other student tutors, they prepare informational presentations and discussions, and promotes them. They inform other students on important dates in the academic schedule. They collect complaints and ideas, evaluate, and communicate them to the responsible staff. They communicate via an appropriate social media platform as well.

Students can enrol in this course upon consultation with the ECTS coordinator dr. Eva Molnárová.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: Faculty of Arts	
Code: 1d-lin-030	Course name: Text Linguistics GE
Type, extent and method of instruction: Form of instruction: Lecture / Seminar Course type: B (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 13 / 13 Method of study: combined	
Number of credits: 5	
Recommended semester/trimester: 3., 5.	
Level: I.	
Prerequisites:	
Course completion conditions: Presence in class is required (a maximum of three absences), preparation of a seminar paper – work on the assigned tasks, active participation in classes, acquisition of a minimal knowledge level (a minimum of 65% of assessment of the exam), successfully passing the oral exam. Students must be enrolled in this course through AIS during the particular period. A student has a right for one regular term and one resit of the written exam and one resit of an oral exam. The course assessment corresponds to the A-FX grading scale: A (100 – 94%), B (93 – 87%), C (86 – 80%), D (79 – 73%), E (72 – 65%). b) final assessment: written exam - 40% and oral exam – 60%	
Learning objectives: Students will: 1. be able to characterize text linguistics as a scientific discipline, define the basic stages of its development from its formation to the present days and incorporate it into the system of other disciplines, 2. be familiar with different approaches to classification of texts, be able to evaluate their pros and cons, and apply the given knowledge in practice (i.e. they will be able to comment on possibilities of text exemplars classification to the appropriate text classes), 3. be able to comment on the concept of text from the process aspect (production and reception of texts) and reflect the theoretical knowledge into practice, 4. be able to comment on the specifics of the different types resp. text classes in theoretical level (i. e. they will know the possible criteria to evaluate a text's properties) as well as a practical level (i.e. will be able to analyse particular test exemplars on the basis of appropriate criteria).	
Brief outline of the course: In relation to current trends in text linguistics directing to the pragmatic-cognitive understanding of textuality, the course is focused on introducing the concept of text in context different historically-based concepts with accentuation of the final pragmatic-cognitive stage. This perception of the concept of text also implies clarifying the media impact (character of the text and its specifics on the background of different media realizations - e-texts, texts on television, etc.) as well as process aspects (reception and production of a text). The explanation of this term,	

introducing the concept of text as a phenomenon and application of a prototype theory point out the cause of difficulties of unambiguous definition of the concept of a text.
